

Cut out the seven Tangram shapes and start creating. All 7 shapes must be touching, but not overlapping. Have fun! ~ *Bette A. Stevens*

## Create Your Own Critters & Riddles Too...

- **Find some interesting facts about the TANGRAM Critters you design**  
*(i.e. dictionaries, non-fiction books, internet searches)*
- **Make a list**  
*Write down several facts that you think would make good clues and other facts that you think your readers would find interesting, unusual or humorous.*
- **Use a rhyming dictionary to help you find just the right words to make a good riddle with two lines that rhyme (a couplet).**  
*For each of your word puzzles you'll want to find descriptive adjectives and active verbs that will help bring your riddle and your TANGRAM CREATIONS to life.*
